## SUMMARY

---

Creative and detail-oriented Full-Stack Web Developer with hands-on expertise in Next.js, TypeScript, HTML, CSS, and Python. Skilled in both frontend UI/UX design and backend development, with a strong ability to turn client requirements into responsive, user-friendly websites and web applications. Experienced in integrating advanced features such as custom chatbots, dynamic APIs, and scalable architectures. Passionate about clean code, modern frameworks, and delivering high-quality digital solutions.

Currently pursuing A-Levels after completing O-Levels from The Anchorage School, with a strong academic foundation and dedication to continuous learning and innovation.

## EDUCATIONAL BACKGROUND

---

### Cambridge O Levels — Completed

*The Anchorage School*

- Successfully completed O Levels with focus on Mathematics, English, and Physics
- Awarded **Equivalency Certificate** by **IBCC (Inter Board Coordination Commissions), Pakistan**, officially recognizing academic credentials

### A Levels (In Progress — Private Candidate)

- Currently pursuing A Levels independently with a focus on science and technology subjects
- Demonstrates strong self-discipline, motivation, and commitment to continuous learning
- Balancing academic growth with real-world freelancing experience in full-stack development

## PROFESSIONAL SKILLS

---

- Proficient in **HTML, CSS, JavaScript, TypeScript**, and **Python**
- Experienced in **Next.js, React**, and modern frontend frameworks
- Skilled in designing responsive, user-friendly **UI/UX interfaces**
- Competent in backend development with **APIs**, authentication & databases
- Capable of building custom **chatbots** and intelligent user interactions
- Strong understanding of full-stack web architecture and RESTful design
- Familiar with version control (Git/GitHub) and deployment workflows

- Adept at transforming client requirements into functional web solutions
- Detail-oriented with a focus on clean, scalable, maintainable code
- Quick learner with a passion for solving real-world problems through code

## STRENGTHS

---

### **Creative Problem Solving**

Skilled at identifying practical solutions to complex challenges in web development. From debugging issues to optimizing user interfaces, I approach problems with logic, innovation, and persistence.

---

### **UI/UX Design Sense**

Passionate about crafting visually appealing and intuitive designs. I focus on user behavior, accessibility, and responsive layouts to deliver smooth digital experiences.

---

### **Full-Stack Development Expertise**

Comfortable working across the entire development stack — from frontend with Next.js and TypeScript to backend integration with APIs, databases, and Python.

---

### **Chatbot Integration**

Experienced in building and integrating smart chatbots to enhance user engagement, support automation, and provide real-time interaction on websites.

---

### **Time Management & Reliability**

Organized and deadline-focused. I prioritize tasks efficiently to ensure timely delivery and consistent communication with clients.

---

### **Quick Learner & Adaptable**

Always eager to learn new technologies and adapt to project needs. I stay updated with trends and thrive in fast-paced environments.

---

### **Client-Centric Communication**

I believe in clear, respectful, and frequent communication to understand client needs and deliver results that exceed expectations.

## CERTIFICATES & ACADEMIC CREDENTIALS

---

### ✓ **O Levels Equivalency Certificate**

Official certificate confirming academic equivalence to the national education system. Demonstrates solid grounding in core disciplines such as English, Math, and Sciences.

### ✓ **Business Analyst & Project Management**

Comprehensive training in project planning, stakeholder analysis, and business documentation. Strengthens project coordination skills—ideal for freelance and client-facing roles.

### ✓ **WordPress Development**

Practical experience with WordPress CMS: theme customization, plugin integration, and creating dynamic, user-friendly websites with responsive design.

### ✓ **TypeScript Programming Fundamentals**

Certified understanding of key TypeScript programming concepts including:

- **Operators**
- **Variables and Data Types**
- **Arrays**
- **String Properties and Methods**
